

IMPROMED 18.21.0 RELEASE NOTES

WHAT'S NEW

Title	Description
<p>Wellness Plans have been improved to work more efficiently between the businesses in a multi-practice environment.</p>	
★ Wellness Plans	Wellness Plans were updated so instances can be used by any practice regardless of where the plan was activated.
★ Enhanced Reports	A new report, Wellness Plans - Intercompany Reconciliation Report, displays intercompany deferred revenue balances for reconciling with multiple businesses.
★ GL Link	The General Ledger Link has been updated to work with multi-practice wellness plans. New ImproMed accounts in the GL setup include Intercompany Receivable and Intercompany Payable.
★ Commissions	Commissions have been updated to work with multi-practice wellness plans so doctors in the practice who used the wellness plan products are paid the commission.
<p>ImproMed's Integration with CareCredit Online makes it easy and convenient for your staff to accept payments from clients who wish to use CareCredit financing to pay for their pets health and wellness care.</p>	
★ CareCredit	<ul style="list-style-type: none">✓ Payments can be applied directly to the client's CareCredit account from the Invoice Conclude screen, Down Payments, or Make Payments screen.✓ CareCredit Online is a Payment Type in Setup Payment Methods. This payment method allows the practice to apply a payment directly to the client's CareCredit account from the payment screens.
★ Transaction Corrections	Transaction Corrections have been updated to work with CareCredit Online.
