Settings For DYMO® Printers

1. In AVImark, go to **Utilities | Printer Setup**.

2. Select the **DYMO** for Drug Labels and select the **Quality** as Label Printer.

3. Click the **Form Assignment** tab and select **30258 Diskette** in the box to the right of the DYMO, if you are using the recommended label size of 2 1/8 x 2 3/4.

4. Click **Done** and close AVImark (*don't minimize the program*).

5. Depending upon your version of Windows, open the **Control Panel**. Search for **Printers** then view **Devices and Printers**.

6. Right-click on the **DYMO** printer and click **Printer Properties**.

7. Click **Preferences**.

8. For **Orientation**, select the **Landscape** option.

9. Click **Advanced** located on the right.

10. Select **30258 Diskette** as the paper size.

11. Click **OK**,

Follow the steps listed here on every computer that has a DYMO printer installed on.
